Pinned · AI in Marketing · Assignment 7: Performance Measurement

Email Performance Review, January to June 2026

Targeted sends earn most of the revenue, sale emails are losing ground, and Win-Back puts the list at risk.

DELIVERED
208,475,360
emails in six months

CH Cindy Ha

Primary 4 new

- A **Where the money is** — Targeted sends: 10.15% of email, 54.02% of revenue
- B **Two surprises we checked** — A $21,763,350 typo, and opens that rank emails backwards
- C **The scorecard** — A live dashboard built on revenue and list health
- D **Four recommendations** — Fix Win-Back first, then refresh the sale offer

Surprises · Surprise one

CH Cindy Ha

April’s record revenue was a typo, one zero too many

★ April Fools Duo Drop, revenue

Reported

~~$24,181,500~~

Corrected

$2,418,150

HOW WE KNOW

- Orders were on trend: 37,290 conversions.
- Order value read $648.47. Other sales: $64.85 to $64.88.
- That’s above our priciest annual plan ($167.99).

$21,763,350
overstated if left in (41.52% of email revenue)

Source: Jan to Jun 2026 email sends. Plan price: MindoMax, “Duolingo cost.” Only cell with a 10x jump.

Next steps | Recommendations

CH Cindy Ha

Fix Win-Back first, then recover the sale clicks

Priority	4 actions	Ranked by certainty, then payoff
1	**Fix Win-Back** Do now 6.23% of email, 60.06% of spam complaints	**$4,719,740** a month of targeted revenue at risk
2	**Refresh the sale offer** Test Super Sale clicks fell from 2.00% to 1.62%	**+$112,800** a month if clicks rise 5%
3	**Judge on the right metrics** Adopt Clicks rank programs right 7 of 7 times; opens, 3	**$0** the scorecard already does it
4	**Verify before we trust** Check One typo overstated revenue by $21,763,350	**Free** checks cost nothing

Monthly estimates from the six-month data. Details on the next two slides; full math in the appendix.

Next steps | Recommendations 1 and 2

CH Cindy Ha

Protect the list first, then test our way back to 2.00% clicks

1 Fix Win-Back

WHY

6.23% of email draws 60.06% of spam complaints.

WHAT WE DO

Drop bounced and long-inactive addresses. Make leaving easy.

$4,719,740

a month of targeted revenue at risk. The fix pays off if it saves 0.74%.

2 Refresh the sale offer

WHY

Clicks fell from 2.00% to 1.62%. Buyers didn't change.

WHAT WE DO

Test one change per send, starting with the offer.

+$112,800

a month if clicks rise 5%; +$529,213 if they return to 2.00%

Source: Jan to Jun 2026 email sends, cleaned. Math and action details: Appendix.

D Next steps 3
+ Appendix 5

Next steps | Recommendations 3 and 4

CH Cindy Ha

Measure what earns money, and check the data before we act

3 Judge on the right metrics

WHY

Opens rank programs right 3 of 7 times. Clicks: 7 of 7.

WHAT WE DO

Report clicks, conversion, revenue per email and list health.

$0
the scorecard already does it

4 Verify before we trust

WHY

One typo overstated revenue by $21,763,350.

WHAT WE DO

Confirm April with order data. Add automatic checks.

Free
optional 5% holdout: up to $50,678

Source: Jan to Jun 2026 email sends, cleaned. Math and action details: Appendix.

Recommendation details and math

Recommendation	Evidence	Action	Value and math
1 Fix Win-Back	Spam 0.2399% (limit 0.10%). 60.06% of complaints. 16.00% bounce.	Suppress bounces; mail only 30 to 120 days lapsed; one-click unsubscribe.	$34,780 ÷ $4,719,740 a month = 0.74% break-even.
2 Refresh the sale offer	Revenue per email −19.04%. Clicks 2.00% to 1.62%. Conversion flat.	One variable per send, offer first. Flash Sale to engaged learners.	+$112,800 (+5% clicks), +$225,600 (+10%), +$529,213 (2.00%).
3 Judge on the right metrics	Clicks match revenue rank 7 of 7; opens 3. Privacy features inflate opens.	Lead with clicks, conversion, revenue per email and list health.	$0. Live in the scorecard.
4 Verify before we trust	April entered 10x too high: $21,763,350 (41.52%).	Confirm with order data; auto-check order value; request missing data.	Free. Optional 5% holdout: $2,027,110 × 5% × 50% = $50,678.

Source: Jan to Jun 2026 email sends, cleaned. Monthly = six-month total ÷ 6. Holdout assumes 50% of the revenue is caused by the email.

Appendix · Drafting guide

CH Cindy Ha

How to draft an email: six rules from our own data

1. **Send it when something just happened**
   Triggered sends: 1.36% of email, 29.37% of revenue.
2. **One audience, one reason**
   Targeted audiences: 10.15% of email, 54.02% of revenue.
3. **Lead with the offer, not the theme**
   Six Super Sale themes, same 18.00% conversion.
4. **Change one thing per test**
   Then we know what moved the click rate.
5. **Make leaving easy**
   Win-Back: 7.09 unsubscribes per spam complaint vs. 20.51 for Super Sale.
6. **Grade it on clicks and revenue**
   Opens rank programs right 3 of 7 times; clicks, 7 of 7.

Source: Jan to Jun 2026 email sends, cleaned. Each rule is backed by a result in this deck.

Appendix · Drafting guide

CH Cindy Ha

Example: a Win-Back email built from the six rules

★ Subject: your Spanish streak can restart today

Email me less · Unsubscribe

Hi Sam, you were 12 lessons into Spanish. One 5-minute lesson today restarts your streak.

Come back this week and get Super free for 7 days.

START A 5-MINUTE LESSON

Not for you right now? We'll stop these after one more email.

RULES APPLIED

2 Only learners inactive 30 to 120 days

3 One offer, one button

4 Only the subject line is tested

5 "Email me less" sits at the top

Illustrative draft, not a sent email. Name, course and offer are placeholders.
